

Process Emissions Control

Quality By Design

High Destruction Efficiency For Tough Process Emissions

Your toughest process emissions don't stand a chance against the technologies and experience of CECO Abatement. CECO Abatement helps you meet BACT requirements and all compliance targets for fumes, VOCs, process and industrial odors.

We specialize in Thermal, Catalytic, Regenerative, and Non-Regenerative Oxidation, as well as Selective Catalytic Reduction (SCR).

Our design team offers hard-won experience from hundreds of successful installations, supported by advanced design software and finite element analysis capability. Regional fabrication facilities allow timely system delivery with minimal transportation cost.

Whether you need simple equipment maintenance, an equipment upgrade, or a complete new process line, our technical service team gives you quick response – with highly effective results based on the very latest technology .

Quality Engineering

The CECO line of products offer an expansive choice of solutions for the treatment and abatement of organics, particulates, malodorous emissions and acidic gases from industrial process facilities. From the initial concept phase through system service and maintenance, CECO offers a complete range of equipment to meet the most demanding needs. Our years of experience with industrial engineering allows CECO to offer equipment that meets the most stringent legislative and safety criteria.

Technical Service

Our technical service departments provide you with the quick response you need. Whether you have existing equipment maintenance needs or new equipment requirements, CECO Abatement has the qualified technicians and experienced engineers to find solutions. With our family of companies, we offer a simple convenient solution to your ductwork, filtration and abatement needs.

Fabrication

CECO Abatement has facilities throughout the United States offering you the latest in fabrication technology. We bring you the expertise you require to design, fabricate, install and meet your abatement needs. At CECO, we believe quality fabrications are only achieved by quality engineering and design.

Turnkey Abatement Solutions

CECO Abatement adds another dimension to pollution control for the automotive, printing, metal converting, wood products, bio-solids and many other industries. CECO's experience in process design allows us to provide "Turn Key" solutions for all industrial plants.

No other company in America can come close to CECO Abatement's ability to offer industries a fully integrated, cost-effective turnkey solution to air quality issues.

Industry Applications

- ETHANOL PROCESSING
- ADHESIVE COATING
- CHEMICAL PROCESSING
- CONVERTING
- HYDROCARBON PROCESSING
- AUTOMOTIVE PAINT FINISHING
- PHARMACEUTICAL
- PRINTING
- PAINT BOOTH EMISSIONS
- TAPE PRODUCT COATING
- SHEET/ COIL COATING
- VINYL PRODUCT LINES
- WASTE WATER TREATMENT
- WOOD PRODUCTS
- PARTICLE BOARD PROCESSING (MDF/ OSB)

Engineered Products

- REGENERATIVE THERMAL OXIDATION
- REGENERATIVE CATALYTIC OXIDATION
- SELECTIVE CATALYTIC REDUCTION
- THERMAL OXIDATION
- CATALYTIC OXIDATION
