June 17, 2020

Dear Valued Customer,

As you may be aware, effective June 4, 2020, Environmental Integrated Solutions (EIS) was acquired by CECO Environmental. The combined product offering of CECO and EIS will allow our customers to simplify their supply chains while partnering with a trusted provider with a proven track record of solving the most challenging air quality applications around the world.

We know our success is dependent on your success, and we are excited about what the combined EIS and CECO Environmental can offer including:

- **A Distinguished Portfolio of Products and Services** – Customers will have access to wider array of high-quality products and services.
- **A Stable Supplier** – We will capture supply chain efficiencies that allow us to become even more competitive.
- **Innovation** – Our investments in product innovation, new businesses, and service lines will provide increasing value to meet customer needs and expectations.
- **Global Installed Base** – We are a global supplier with completed projects in North America, South America, Europe, Middle East, Africa, and Asia.

As we complete the integration of EIS to CECO, be assured that we are committed to delivering the high level of service to which you are accustomed. Our goal is to make this a seamless transition for customers.

We will continue to keep you posted on our plans for the integration and how this acquisition will benefit you. In the meantime, please do not hesitate to reach out to your current EIS contacts with any questions you may have. The entire EIS team remains intact and ready to meet your existing and future needs. We look forward to continuing this valued relationship as well as to you building new ones with CECO Environmental.

Thank you for your continued support.

Sincerely,

Paul Farrington
Business Director
