## Product Information Self-Priming Magnetic Pumps

The Mefiag self-priming magnetic pumps combine the convenience of being self-priming with the reliability of a magnetic pump. The MP-8Q, MP-10Q and MP10-QHP are self-priming up to 2,5 meters head. Since they are self-priming, these pumps can raise liquids from below pump level. These pumps, like all the Mefiag magnetic pumps, require little maintenance.
They can be allowed to run dry for lengthy periods and they are operated simply.

| Pump | Max.Cap. $m^3/h$ | Max.Press. Bar | Kw | Volts |
|---|---|---|---|---|
| MP-8Q | 7,6 | 0,8 | 0,75 | 230/400 |
| MP-10Q | 11,8 | 1,3 | 0,75 | 230/400 |
| MP-10QHP | 15,9 | 1,6 | 1,1 | 230/400 |
| MP-24Q | 40,9 | 2,4 | 4,0 | 230/400 |

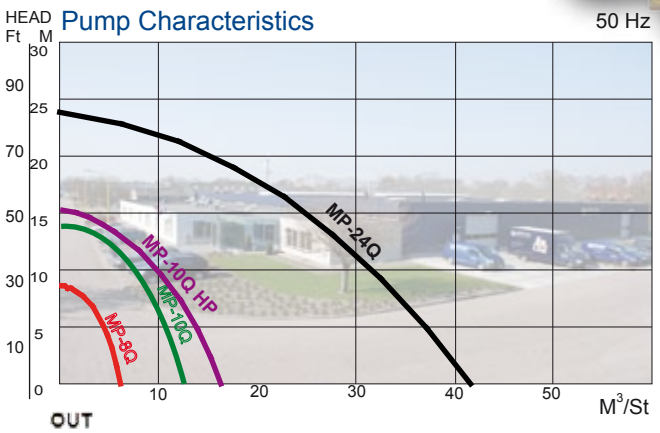

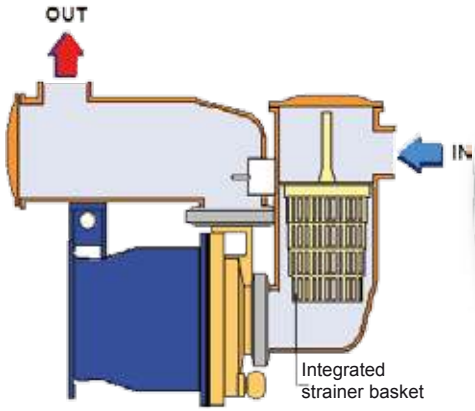

MP-10Q

MP-24Q

All the Mefiag magnetic pumps are available in PP and PVDF and they are suitable for operating temperatures up to $70^0$ C in PP and up to $90^0$ C in PVDF
