RTO THERMAL OXIDIZERS FOR WOOD PRODUCTS VOC COMPLIANCE

The Adwest Brand Technical team has extensive experience in designing, installing and rebuilding RTO Thermal and RCO Catalytic Oxidizers from 2 to 11 chamber systems. We can provide point source RETOX RTO Oxidizers from 1,000 scfm to large multichamber RTO systems of 400,000 scfm and greater flow capacities.

Typical wood products applications include:

- Biomass
- Veneer drying
- OSB-Oriented Strand Board
- MDF Plants
- Plywood plants
- Laminating
- Resin, varnish and adhesive plants
- Wood finishing & Plasticizers

Adwest can refurbish and relocate your existing RTO and RCO thermal Oxidizers and provide increased ceramic media thermal energy efficiency with lower pressure drop heat transfer media. Low NOx Burner, RTO valve flow control, RTO insulation and PLC Control with VPN access upgrades are available.

Please contact the Adwest Technical team today to discuss your new RTO & RCO project or a rebuild and/or relocation of your existing RTO and RCO Oxidizers!
