

CECO Dean

NEW PRODUCT

NEW SIZES FOR THE RA SERIES

DEAN IS LAUNCHING ADDITIONAL SIZES FOR ITS BEST SELLER, THE RA SERIES

Since 1869, Dean has been an industry leader in the manufacture of high-performance metallic centrifugal pumps. The Dean pumps are manufactured in a variety of metals to handle a broad range of high temperature and chemical process applications.

We are happy to announce that Dean has launched twelve additional sizes for our top-selling RA series pumps, on March 1st, 2023. These Air-Cooled High Temperature Thermal Liquid Pumps are cost effective and customized to handle hot oil and heat transfer applications. These new sizes will add to the hydraulic range currently available with the RA series. This allows Dean to offer more options when configuring, fulfill applications closer to the BEP (Best Efficiency Point), allow for fine-tuning of a system efficiency, and control operational costs by running at a better efficiency. Finally, the new RA sizes will better answer the needs in international markets, with more selection and more head available at 50Hz.

MODEL RA3146 SIZES
1x3x8.5
1.5x3x8.5
2x3x8.5
3x4x8.5
4x6x8.5
1.5x3x10
2x3x10
3x4x10
4x6x10 #2
1x2x11.5
1.5x3x11.5
2x3x11.5
3x4x11.5
4x6x11.5

MODEL RA3186 SIZES
4x6x10 #1
1.5x3x13.5
2x3x13.5
3x4x13.5
6x8x12.5
2x4x15.5
3x4x15.5
4x6x15.5

MODEL RA3246 SIZES
6x8x15.5
8x10x15.5
